

– Input Conversion Table –

This table shows the mapping between a keyboard key and an input when the character is facing to the right-hand side; if the character is facing to the left-hand side, the input symbols in each of the three pairs; 9 and 7, 6 and 4, 3 and 1; are swapped. For example, for P1 pressing the key ← corresponds to the input 4 while facing to the right-hand side and to the input 6 while facing to the left-hand side.

The key + represents the simultaneous pressing of the two other keys.

| Input | 1P-Keyboard | 2P-Keyboard |
|-------|-------------|-------------|
| A | Z | T |
| B | X | Y |
| C | C | U |
| 1 | ↓ + ← | K + J |
| 2 | ↓ | K |
| 3 | ↓ + → | K + L |
| 4 | ← | J |
| 6 | → | L |
| 7 | ↑ + ← | I + J |
| 8 | ↑ | I |
| 9 | ↑ + → | I + L |
